

# Level 2 Equivalent Coaching Development Workshops

This is the first 'advanced' workshop aligned to BBNZ's new coach development framework encompassing flexible, accessible and relevant development coordinated and delivered when coaches coach.

Coaches attending this programme will receive Level 2 accreditation using a new format that integrates the course activity within tournaments and development camps. This will give a wider scope for each participant to learn and develop as coaches.

This course is suitable for coaches with Level 1 accreditation and appropriate practical experience.
